### **1. Installing Course Content**

This guide provides instructions for installing LearnMate courses for use with the LearnMate Content Viewer. LearnMate courses can be installed only once the Content Viewer is installed.

For more information on LearnMate Content Viewer installation, see the setup guide provided on the installation CD.

#### **1.1 Check Your Administration Privileges**

Administrator privileges are required to install course content.

Follow the steps below to check whether you have administrator privileges on a computer:

- 1. If you are using:
  - Windows 7, click the Windows Start button, then right-click the All Programs button.
  - An earlier version of Windows, right-click on the Windows **Start** button.
- 2. If you:
  - See an Open All Users option at the bottom of the menu, you have administrator rights on that PC.

Do not see an Open All Users option at the bottom of the menu, contact your IT Administrator either to assign you administrator rights or to perform the installation for you.

#### **1.2 Installation Procedure**

The installation procedure is outlined in the sections below. Before starting, note the following:

- Note: Courses are not installed simultaneously. If two or more courses are selected to be installed, the Course Installation Wizard guides you through the installation of the first course. When that course is installed, the wizard then guides you through the installation of the next course.
- Note: At any point in the installation process, click Back to review or change any of your installation settings.
- Note: You may be asked to restart your computer after the installation of a course. Do not restart your computer until all desired courses are installed.
- Note: If a course is supplied with a software application, you will be asked to install it. See section 1.3 Installing Applications, below.

#### **1.2.1 Automatic Installation**

Course content can be installed automatically or manually.

To install course content automatically:

1. Insert the LearnMate Course Content DVD into the DVD drive. The AutoPlay window is displayed.

& AutoPlay	
DVD RW Drive (E:) Content Setup	
Always do this for software and games:	
Install or run program from your media —	
Run CourseInstallationWizard.exe Published by INTELITEK INC.	
General options	_
Open folder to view files using Windows Explorer	
View more AutoPlay options in Control Panel	

2. Click Run CourseInstallationWizard.exe. The installation process begins. Proceed to step 3 below.

To install course content manually:

- 1. In the disk folder, double-click the **Install** folder. The contents of the folder are displayed.
- 2. Double-click CourseInstallationWizard.exe.

AL.	Books
L	Install
0	Autorun.inf
1	CourseInstallationWizard.exe
1	Standalone.ico
	Versioninfo.txt

The installation process begins.

**3.** The LearnMate Course Installation Wizard opens.

#### **1.3 Installing Applications**

Some courses are supplied with one or more software applications for learning purposes. If a course includes such an application, the LearnMate Agent window is displayed during the installation of that course.

Application Name	Current Version	Required Version	Check Version Status	Download Link
Robocell for SCORBOT-ER4u	Not installed	5.3.3.5	Software upgrade required	Click Here

- Note: The LearnMate Agent window will be displayed even if the required software is already installed on the computer. In such cases, the Check Version Status column will indicate that no action is required. Close the LearnMate Agent window to continue installation.
- To install an application:
  - 1. In the LearnMate Agent window, click the download link **Click Here**. The Installshield Wizard for the selected application opens.
  - 2. Complete the installation of the software application.
  - 3. Click **Finish** after the application is installed.
    - Note: Your computer may have to be restarted before the application can be run. Do not restart your computer until the LearnMate Course Installation Wizard has finished installing all selected courses.
  - 4. If the LearnMate Agent window lists additional applications to install, install those now.
  - 5. Once all of the required applications for the course are installed, close the LearnMate Agent window. The LearnMate Course Installation Wizard will then continue.
